Cut the A4-card in half lengthwise, fold in half and then fold one half again. Now you have created an easel card. Cut Designable DS0911 from white card.

Cut out the beads pattern and lay it on the clock.

Pierce the pattern and embroider the beads. Take a small gold-coloured bead, then a pearl and again a small gold-coloured bead. Layer design paper onto the card. Attach the clock to the card and finish off with punched-out motifs.
