

Benodigheden:

- A5 single-fold card
- Beige card
- Creatables Bird cage LR0147
- Creatables Icicle LR0135
- Piece of mica
- Pretty Papers bloc PK9074

Cut out the bird cage, cut off the top, cut off the base and the supports underneath. Turn the base a little and stick it on again and there is your window.

Place the window on your card, trace it and cut the shape out. Layer a piece of mica between the background paper and the card.

Stick the window onto the mica.

Cut out an icicle and layer it on the front on the card.

Finish the card off with Christmas pictures designed by Eline some time ago; you might still have a few.

Visit our Card Gallery for more inspiring ideas with these and other materials.
